

Customized Training

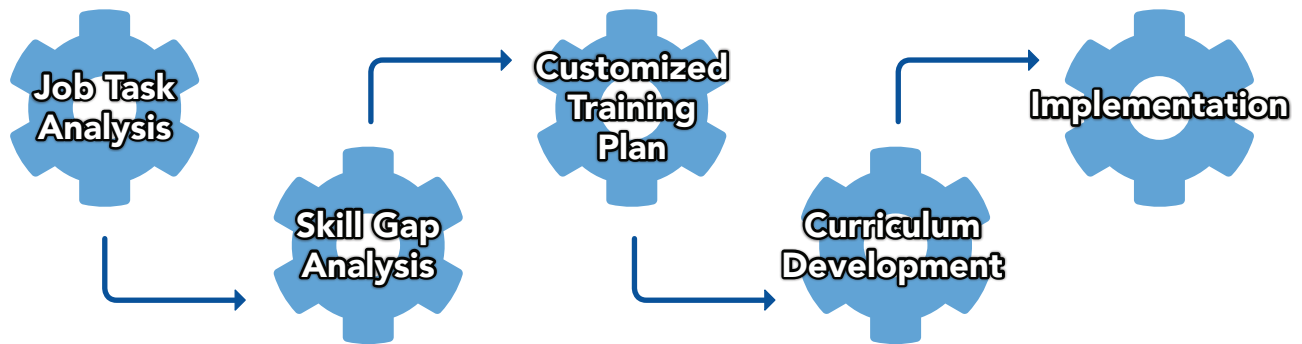

EDSI develops Customized Training based on the unique needs of each employer. With a mission to understand the needs of our customers, we provide innovative training to match current and emerging business requirements.

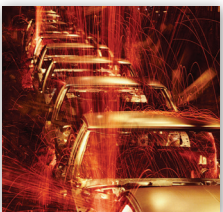

Our Customized Training Process

Our proven process, powered by our **skilldex**® system, minimizes the time and cost needed to identify and bridge skill and knowledge gaps within an organization.

We pride ourselves on creating customized training solutions that fit the needs of your organization as well as the needs of your employees. By incorporating your company's processes and procedures directly into the training, and by working to fine-tune the specific tasks, responsibilities and knowledge required of a position, we are able to increase employee satisfaction, reduce employee turnover and improve the overall efficiency and productivity of your workforce.

Tools to Get the Job Done Right

Research shows that a full 40% of employees who don't receive the necessary job training to become effective will leave their positions within the first year.

Our Approach

Targeted

Focusing on specific needs to address skill shortages and knowledge retention strategies

Efficient

Developing better, faster, smarter solutions to prevent unnecessary waste in training time and budgets

Measurable

Delivering a data-driven approach through Skilldex to provide outcome, effectiveness and ROI data at your fingertips

Let's Connect

We'd love to hear from you. We'll listen to your needs and help you find your solution.
